

Brandon Schefstad Software Engineer

✉ bschefstad@gmail.com 📍 Philadelphia, PA 🖱 Portfolio 🐙 Github 🌐 LinkedIn

PROFESSIONAL EXPERIENCE

- Software Engineer w/ Next Level Hair Designs, Freelance** Jan 2022 – present
Tampa & Philadelphia
- Designed and developed UI with a modern, mobile-first implementation using Figma, HTML, and Tailwind.
 - Migrated client's customer intake from Instagram to a hosted site, providing business stability and consistent customer experience.
 - Established a workflow completely operable from a mobile phone, empowering client for on-the-go business accessibility.
- Software Engineer w/ 100Devs, Freelance** Jan 2022 – present
Philadelphia
- Ideated, designed, and developed full-stack applications using technologies such as Node, React, and Prisma.
 - Participated in collaborative coding projects working with 5-15 developers on volunteer and open source teams.
 - Reviewed peer code and mentored 3 other software engineers.
- Teacher for the Deaf and Hard of Hearing - Hillsborough County Schools** Aug 2021 – Aug 2022
Tampa
- Unified a team of 12 members serving 32 Deaf and Hard of Hearing students.
 - Increased stakeholder participation in student success by removing bottlenecks and emphasizing communication.
 - Collaborated with multidisciplinary team members to monitor student progress and course correct as needed.

SKILLS

HTML/CSS/JS | Tailwind | MongoDB | Express | ReactJS | NodeJS | Prisma | Typescript

ORGANIZATIONS

- Code For Philadelphia** Aug 2022 – present
Improved development experience by contributing documentation, organizing file structure, and addressing linter warnings.
- Social Justice Hackathon - Philadelphia** Sep 2022
Provided a collaboratively-built, public facing React UI for Philadelphia citizens. Presented our work to an audience and panel of judges, discussing use cases, limitations, and next steps. Co-led team to win 1st place in the competition.

PROJECTS

- ESE-At-A-Glance, MongoDB | Express | React | NodeJS | Tailwind** [🔗](#) Sep 2022 – Oct 2022
Full stack application for teachers to display student accommodations, history, and personal information. Uses JWT authentication, React-Router 6, and MVC architecture.
Username: bschefstad-admin@gmail.com
Password: bschefstad-admin@gmail.com
- Raise Our Bar, React | MaterialUI** [🔗](#) Oct 2022 – Oct 2022
The project was designed to showcase the work of the Judge Accountability Table and R-Ladies Philadelphia. Philadelphia citizens can query specific judges, see bail amounts, and compare two judges against each other.
- Timeato, MongoDB | Express | EJS | NodeJS** [🔗](#) Sep 2022 – Sep 2022
Collaborative project building a time tracking application to improve productivity. User information and time-elapsed are stored on the back end.

EDUCATION

- Bachelor of Arts - Philosophy, University of South Florida** 2014 – 2018
- Bachelor of Arts - ASL Interpreting, University of South Florida** 2014 – 2018
